Ramsey, MN 55303

## **MANTOUX TESTING**

According to Minnesota Rules Chapter 4668, number 4668.0065, all employees providing services that require direct contact with clients must provide documentation of having received a negative reaction to a two-step Mantoux test administered within the 12 months before working in a position involving direct client contact.

Please provide proof of Mantoux testing to Achieve Healthcare. If you have not had this done, you must schedule an appointment with the County Public Health department or your doctor for Mantoux testing as soon as possible.

This must be in your personnel file before you will receive payroll.
